[Verse 1]
Can we sit here, silent
Just hoping to survive herein?
Watch it cut through acreage dividing
And it's spiraling entirely again

[Chorus]
A symbol of our plague
Shakes our bones awake
Descending through ablaze
Inside these winds

[Verse 2]
Constant rivers rising
Swollen streams dividing
Watch it cut its way through the valleys
While devouring it entirely again

[Chorus]
This den becomes a lake
It bathes our towns away
Ascending to our necks
Inside these waves

[Bridge]
The flam?s are alive
Reclaim th?ir audience
These rains are divine
Reclaim their environment
A new phase arrives

[Chorus]
(A symbol of our plague)

A symbol of our plague
Shakes our bones awake
Descending through ablaze
Inside these winds
This town becomes a lake
And it bathes our ghosts away
Ascending to our necks
Inside these waves
