departing the body

Deftones

Álbum: Private Music - 2025

There's a room
We hang in space
It's clear and cold

A dome light is all that remains
Helps split these days apart
Our low rest bodies away
We watch these grains dissolve

Racing through the light
Today, we're gonna taste beyond
Enchanted by what lies
What awaits our future

I realize as morning came, a brand-new phase upon
Our movement is starting to change
We let the mod begin

Racing through the light
Craving what awaits beyond
Enchantment in our eyes
We're veering closer

Lift your eyes, surprise, surprise, we made it
And you raise your eyes, surprise, we're finally
Through, through, through
In a room
We end in, it's clean

A dome light, all that remains
It splits these days apart
I and our low rest bodies away
We watch these grains dissolve
