i think about you all the time

Álbum: Private Music - 2025

We sail
Inside of your warship
You sing
Your refrain and I'm out of my mind

All of my life
You've been the same
All of our days
And we'll never change

As we sink
Inside of your warship
Lay next to me
Our theme plays and we're out of our minds
Singing

All of my life
We'll never change
All of our days
Show me the way

On a wave (on a wave)
On a ride with you

Riding your wave
Wrapped in your calm
With your arms over my head

Cross the shallows, I keep my balance
Hold my diamond, warms me inside
Cross the shallows (all of my life), I keep my balance
Hold my diamond (we'll never change), warms me inside

Riding your wave

Wrapped in your calm
And your arms over my head

In your wave
Kept me, kept me calm
With your arms over my head
