metal dream

Deftones

Álbum: Private Music - 2025

Strap into your gown and jewels, deep into the heart of the abyss
Searching for a solace recreated far beyond of what exists
Sink inside a velvet tomb, floating out of time as we embrace
Deeply enthralled in your grasp

In your dreams, all we see are the gold-drenched days laid ahead
Off we sleep, and soon we'll sink in perfect pose together

Crash into the forest bed, breathing deep, I sink into your chest
Bathing in the crystal-coated rays beyond where anyone exists
Swaying out of consciousness, hear the mourning bells as we embrace
Deeply enthralled in your gaze

In your dreams, all we see are the gold-drenched days laid ahead
Off we sleep, and soon we'll sink in perfect pose together

Together (—ther, —ther, —ther)
Together (—ther, —ther, —ther)
Forever (forever)

In your dreams, all we see are the gold-drenched days laid ahead
Off we sleep, and soon we'll sink in perfect pose together
In your dreams, all we see are the gold-drenched days laid ahead
Off we sleep, and soon we'll sink in perfect pose forever

Forever
